

Clean-Write Basics

Basic Products

Clean-Write offers everything you need for a cleanroom environment. The documentation products in our Unitek division are impregnated and coated with a polymer formula that obstructs particles from generating, as well as, preventing chemical exportation. We offer a variety of products that include binders, notebooks, and clipboards all specially produced for the cleanroom environment.

Clean-Write Notebooks are semi-transparent and made of high density polyethylen covers.

Clean-Write Binders are constructed of antistatic, 75 gauge high density polyethylene.

Clean-Write Binder Tab Dividers are three hole punched with a 1/5" cut tab.

Clean-Write Clipboards are made with natural polyethylene and the clip mechanism is nickel coated.

Applications: Excellent for cleanroom, microelectronic, laboratory, and industrial maintenance.

Features & Benefits

Notebooks

- 100 page count
- Comes with college ruled or grid paper
- Available in three different sizes

Clipboards

- Nickel coated non particulating clip
- Top mounted
- Double packaged in a certified class 100 environment

Binders

- Available in four different sizes
- Transparent overlay on the front & spine.
- Comes in white only

Binder Tab Dividers

- Three holed punched
- Double packaged in a certified class 100 environment
- Available in white only

Clean-Write Basics

Clean-Write Notebooks

Product No.	Size	Color	QTY/PK	Packaging
College Rule:				
CRP0770-2	2"x 3" Side Spiral	Cover:Blue or Frosted	100 Pages	10/case
