

Cotton String Knit Gloves

Ivanhoe™

Cotton String Knit Gloves

Cotton String Knit Gloves keep hands warm and protected while working. These cotton gloves are knit to form seamless, durable construction. The gloves are tough enough to be worn alone for general abrasion protection, yet comfortable when used as a glove liner. Use under water-proof gloves or in cooler weather. Available in Cotton/Poly Blends or 100% Cotton.

PVC Dot Coating improves grip and provides longer wear. Choose these for a cost-effective, light-duty work glove. Available in your choice of single or double-sided dot coating.

Applications: Agriculture, Construction, Material Handling, Maintenance, Masonry

Features and Benefits
