

# Latex Examination Gloves - High Risk

## HIGH RISK Latex Exam Gloves

Confidence is key. When you see, smell and stretch a pair of our Latex Gloves, you will feel the quality and consistency that is inherent in all **DuraShield™** gloves. Slip your hand into a pair, and you will quickly discover that these are gloves you can rely on for protection and comfort.

**Ultra-Safe™ Powder Free HIGH RISK Latex Exam Gloves** are thicker than our Sure-Grip Latex Examination gloves to offer maximum protection in high risk situations. FDA approved for safe use in medical facilities, this 10mil thick glove is 12" in length for forearm coverage. the beaded cuff fits snugly to create a fluid barrier.

The textured grip offers unsurpassed tactile sensitivity and dexterity. These ambidextrous gloves are molded to reduce hand fatigue. Using only the highest quality raw materials, each glove is chemically resistant to alkalies, acids, alcohols, and ketones.

**Applications:** Medical, Dental, Laboratory, Industrial, Safety.
